Wellbeing & Care

It's what's inside that counts are words that resonate throughout Gold Care Homes and nowhere is this more appropriate than in relation to our team who will ensure that you or your loved ones receive the care that they deserve.

Our team members are kind, friendly, understanding, compassionate and approachable. And above all, they are passionate about ensuring that the highest level of care is provided. We ensure that their professional qualifications are always fit for their role and we provide ongoing training and development.

Here at Peverel Green Care Home, we will offer the following care services:

- **Residential Care**
- **Respite Care**
- **Dementia Care**
- **Nursing Care**

In addition, we will ensure that all of your personal care needs are met. Not only will you have use of our onsite hairdressing salon and nail bar, we will also manage any GP and hospital appointments and any need for other services such as dentistry, chiropody and physiotherapy, as required.

Our values:

“Our committed healthcare professionals ensure to maintain the integrity and respect residents deserve whilst in our care”

Residential
Care

Every resident has their own private comfortable bedroom. As we believe that life at our residential care homes should be a continuation of your life before you join us, our teams will meet with you and your family and agree on a moving-in plan, getting to know your choices and preferences.

Respite
Care

Caring for a loved one or close friend can be a very rewarding yet equally often humbling experience. Our Care Homes will provide the care you want for your loved one while you take a well-earned and much-needed break from caring, whether for 2 weeks or any longer length of time that fits in with your needs.

Dementia
Care

The most important aspect of dementia care is that it should first and foremost be personal to the resident. We take the time to get to know each resident as an individual – their personal history, lifestyle and personality, defining and directing our care for who they are. We work very closely and value our relationship with each resident's family in supporting their loved one's care requirements.

Nursing
Care

Nursing care provides the same service as our residential care, with the added benefit of 24hr support from a registered nurse. This service is suited to residents who have regular medical attention that would normally be delivered in a hospital environment.

A host of enjoyable, therapeutic and stimulating...

Activities

We understand that your new home needs to fulfil more than just your care needs. The activities that will be on offer will be carefully selected to ensure that we provide fun, laughter and relaxation as well as meet your physical, social, emotional and cognitive needs. This holistic approach ensures that you will have purpose and be happy and fulfilled every day.

At Peverel Green Care Home your dedicated Activities Co-ordinator will ensure that there is ample, daily opportunity to keep your mind and body active. Activities are adapted for all ability levels.
