Passion & Purpose

Only exceptional people deliver exceptional care

Whilst our interiors and facilities are simply in a class of their own, it is our Aura People who truly create a point of difference.

We have forged together a team of highly-trained care professionals, who are passionate about delivering exemplary levels of person-centred care in a warm community. We encourage everyone to make their own decisions, which contributes to a person's ability to flourish within our Care Homes.

As we have our "pillars" for each resident, we have "pledges" that we make to all of our staff, as Aura Care Living is completely aware that well-trained, happy and appreciated staff deliver a much better service and shapes a superb environment.

Aura Team members are kind, truthful and proud to care

Aura People take time to discover and listen to personal stories, passions and inspirations to acquire a better understanding of each Resident's inherent motivation and wishes.

We customise care to meet every specific need. Individualised care plans, for both residential and specialist dementia care, are developed and include choice, aligned with care needs and support requirements, while taking into consideration lifestyle needs.

In this way, we can help maintain, wherever possible, the way of life you have always enjoyed; carrying on with lifelong interests and passions with family and friends, whilst also experiencing exciting new opportunities and embracing new friendships.

Our promise is to support you in every aspect of your life, so that you can really enjoy the perfect blend of independence and personal freedom, with just the right level of care, support and reassurance.
