

Care and Support in your own home

When things in life become a challenge, we believe in removing the challenges instead of removing the familiarity of the home.

A common misconception is that people requiring care have to move into a residential care home.

Welcome to Acacia Homecare

0161 660 4471

We offer a flexible service that can be adapted to meet your needs. Some people may just need one or two visits a week to help with household tasks, companionship and shopping. When the need arises, this can be increased to a daily visit to help with personal care, or several times a day if required, right through to 24 hour live in care to keep you where you want to be.

We can help you get up in the morning and to go to bed at night. We can also provide overnight care if needed. All of this can also incorporate household tasks such as laundry, cleaning and shopping.

Whatever support you require can be carried out in your own home at a time convenient to you. We can help with dressing, administering medication, bathing and continence care, food and drink preparation. If mobility support is required, we can assist and are trained to use equipment when needed.

We work hard at all times to ensure the individual feels comfortable; we respect their home and environment and their choices. We maintain an individual's dignity at all times.

“We are not there to take away independence; we are there to help you do the things you want to do.”

Our specialist care services include:

Dementia Care | Care for older people | Parkinson's disease

Arthritis | Heart and Lung conditions | Multiple sclerosis

Motor Neurones Disease | Autoimmune conditions

Learning disability support | Palliative care and End of Life care

You may be a carer for a loved one and require regular or occasional respite so you can go out for a couple of hours, or just relax at home, or even go away for a few days knowing that someone trusted is there to support your relative.

Whatever your situation, we are here to listen and to help advise and we can book a no-obligation consultation to discuss further about your care journey.

Please call or email to speak to a member of our management team.

“You may be receiving care at home already, but not getting the consistency of regular carers at your chosen times.”
