

The Nursery in Belong

The village's 25-place intergenerational nursery, featuring a secure sensory nature and play garden, is designed to provide a high-quality care and learning environment for children from birth to five years.

As the North West's first children's nursery to be fully integrated within a care village, it promotes connection across multiple generations, creating unique opportunities for young and old alike to:

- Share creative experiences, indoors and out
- Forge meaningful friendships
- Develop communication skills
- Be part of a healthy community
- Play and learn together in a purposeful and inspiring environment

The Nursery in Belong operates flexibly over six days a week to accommodate work and shift patterns.

Commitment to innovation

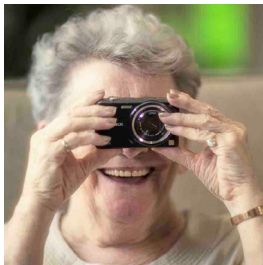

Belong was born out of a vision to create a magnificent setting for magnificent care; a determination to deliver what customers and their families told us was needed: a radically

different alternative to the host of traditional care settings already out there; a belief that older people, no matter how frail or vulnerable, have a right to enjoy the same richness of experience they have always known.

The result: Belong villages

Award winning care

Belong has pioneered the leading edge household model, where 24-hour care, including nursing and dementia support, is provided in small group living spaces, accommodating up to 12 people, each with spacious suites. Every aspect

of the design has been thought out to meet the needs of older people and maximise independence for those living with dementia.

End of life care

Belong villages are committed to working with customers, families and colleagues to ensure high quality care for individuals who are approaching the end of life.

Belong is a member of the National Gold Standards Framework programme, supported by local facilitators, the National GSF team and other colleagues.

All our villages are accredited within the Gold Standards Framework or NHS Six Steps programme, working closely with GPs, primary care teams and specialists, to reduce hospital admissions and promote dignity and choice at end of life.

Dementia expertise

Our team of committed and compassionate individuals are highly trained in person-centred approaches to care; and we are leaders in supporting people with dementia. Both the organisation and individuals working for us have been recognised in national and international awards for their outstanding contribution

to this field and the difference they have made to the lives of people we support.

Admiral Nurse service

In partnership with Dementia UK, Belong offers a free Admiral Nurse service to all Belong customers, their family members and carers. Admiral Nurses are mental health nurses specialising in dementia care. They provide individualised support, information and advice on therapeutic and practical approaches to living with dementia.

Independent apartment living

Belong villages offer stylish modern apartments where individuals or couples can enjoy an independent lifestyle, with a vibrant village community right on their doorstep. At the same time, there is the reassurance of a 24 hour emergency response service and a supportive environment close by.

Day care with a difference

Belong's bespoke day care service is our way of supporting you to take advantage of the facilities available within our vibrant community and to take part in a range of meaningful social activities on a daily basis. Open to everyone, we cater for a range

of needs and have specialist support for people with dementia. All Experience Day customers are invited to make use of our exercise studio, enjoy lunch in The Bistro, plus enjoy snacks and refreshments during your visit.

Quality care at home

Belong services also extend beyond the village. Listed in the Top 20 home care providers as rated by customers on homecare.co.uk, Belong at Home ensures a quality focused service to people living in the community. Our

team offers practical and emotional support that enables older people to maintain a high quality of life in their own homes. We ensure a flexible, quality focused service provided by a consistent and, above all, caring team.
