LIPHOOK

Welcome to Bramshott Grange

What sets us apart from other care homes?

Bramshott Grange is more than just a fantastic place to call home. You can feel safe in the knowledge that the very highest level of care is available, regardless of your needs. We offer residential, nursing and dementia care, as well as respite stays, palliative and end of life care.

With more staff per resident than most homes, we provide exceptional care, attention and companionship. Our dedicated team ensures every individual receives the time and support they deserve.

All-inclusive costs with no surprise bills

Unlike many care homes, our costs include everything from medication to meals, drinks, chiropody, hair appointments and more, offering peace of mind that there will be no surprise bills.

We combine exceptional care with a vibrant lifestyle. Residents enjoy luxury facilities, engaging activities and warm companionship, ensuring well-being, comfort and enjoyment every single day.

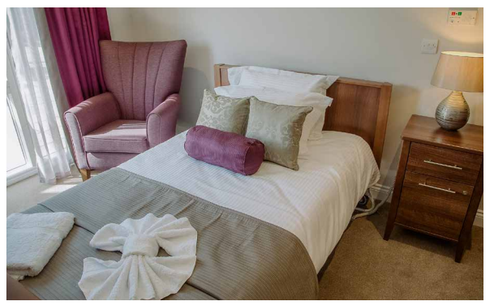

A *Home* For Life

At Bramshott Grange Care Community it's our family caring for your family

We are committed to delivering the highest quality care and service, tailored to each individual's needs. Before moving into Bramshott Grange, every resident is assessed by a suitably qualified member of our team to ensure the right care package is in place. This assessment is the start of getting to know the person, along with their families and friends.

Our experienced and compassionate carers support residents to live active, enriched lives, adapting care as needs change over time. Whether a resident moves from residential to nursing care, or begins a dementia journey, they can remain safely at Bramshott Grange, supported by a familiar team that treats everyone with dignity, respect, and genuine kindness.

Fine Dining Is At The *Heart* Of Our Home

The home offers a fine dining experience with a varied menu using locally sourced produce and caters for all diets and dietary requirements. We also have a private dining room that residents and families can book for those special occasions. In addition, 'The Punch Bowl' bar area offers complimentary hot and cold drinks as well as delicious snacks throughout the day - a great social point of the home for visitors, families and residents alike!

Range Of *Activities* For All Abilities

A wide range of in-house activities are available seven days a week, including art classes, dancing, gardening clubs, musical entertainment, flower arranging and much more. Residents can also enjoy outdoor trips with Myley Day Trips, a dedicated service that allows them to explore the local area safely and comfortably. Alongside our regular activities programme, we offer a range of meaningful projects and experiences that go above and beyond everyday life, including our residents' *Recipe* and *Musical Memories* books, both of which have been published and are available to purchase. We also create special themed experiences, such as our much-loved Virtual Summer Cruise Week, bringing excitement, memories and a sense of adventure into the home. An in-house hair salon is available to ensure residents feel relaxed, confident, and pampered at all times.

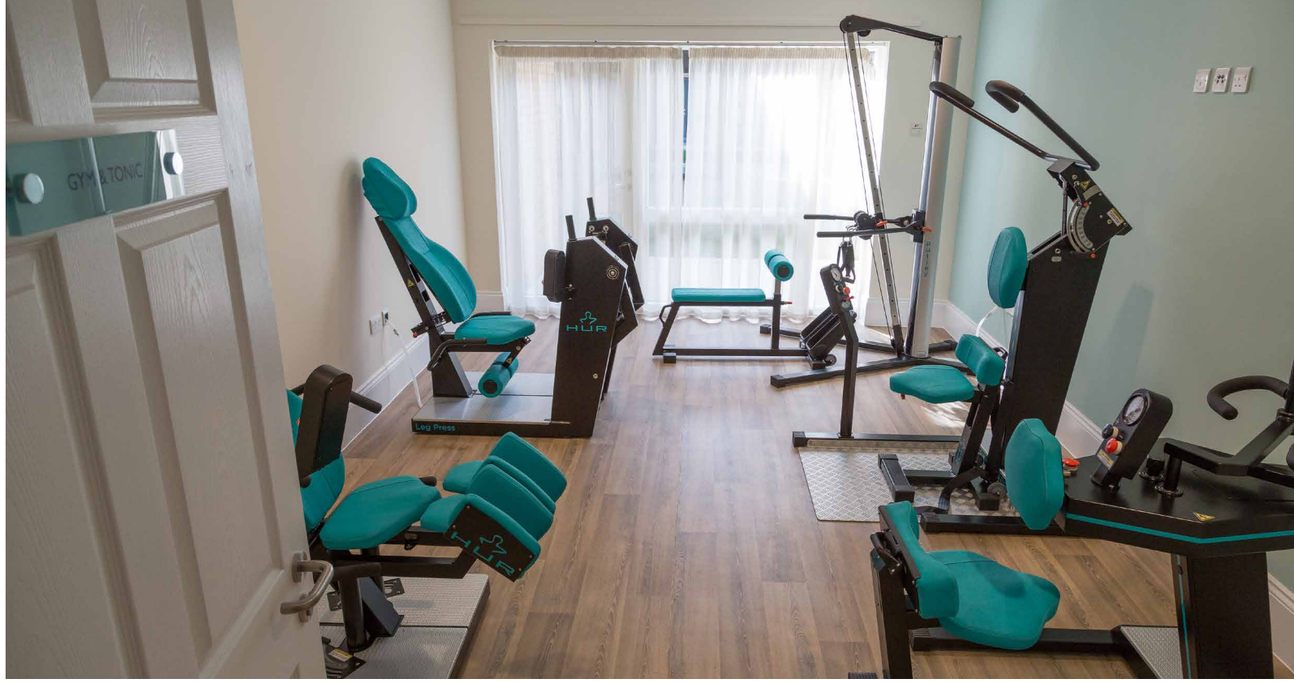

State Of The Art *Cinema & Bar*

With varied communal areas, you can socialise in groups or find one of the many cosy corners to read a book or enjoy the surroundings. 'The Punch Bowl' is the hub of the home where residents meet to socialise or take part in activities. Alongside movie nights, our cinema is often used to stream sporting events, with Wimbledon always proving popular!

Active *Life*
Active Mind

*O*ur home promotes a healthy lifestyle and positive well-being all year round.

We place a strong emphasis on encouraging independence by helping residents build strength, mobility and confidence through regular physical activity. Our in-house gym is equipped with specialist equipment designed to support older people, making exercise accessible, safe and enjoyable for all abilities. Exercise sessions promote an active, healthy lifestyle while providing a fun and social way for residents to stay engaged and well.

One to one *rehabilitation*

Dedicated one-to-one sessions are available through our trusted external providers, which are particularly beneficial following surgery or a respite stay. If you are coming to us after an operation, we can liaise with outside services to arrange physiotherapy and rehabilitation, ensuring your recovery programme is personalised to your needs and helps you get back on your feet safely and effectively.

What we can provide

- *One to one sessions*
- *Post-operative rehabilitation*
- *Group fitness sessions*
- *Weekly gym workouts with our in-house fitness trainer*

A Lifestyle *Choice*

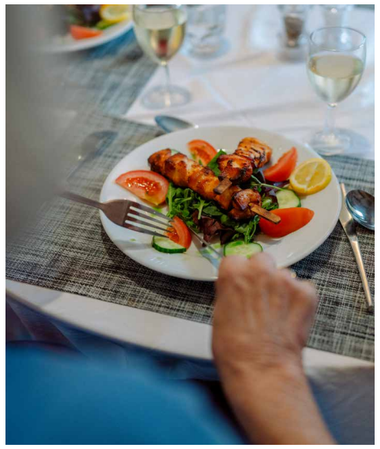

For some people, moving to one of our homes is about lifestyle choice.

Many people find themselves feeling lonely or isolated in their own homes, perhaps after losing a lifelong partner. They may struggle to keep up with household or garden tasks, or simply no longer want to make the effort of cooking for one. Living with us is about embracing the next chapter of your life, a place where you can enjoy these comforts again, discover new hobbies, build meaningful friendships and have the reassurance that if you ever need care or support in the future, it will be there when you need it.

A *Home* From Home

We understand that moving into a new home can be challenging and personal touches can really help with settling in. We encourage our residents to personalise their accommodation to make it feel more like home, with support from our in-house maintenance team where needed.

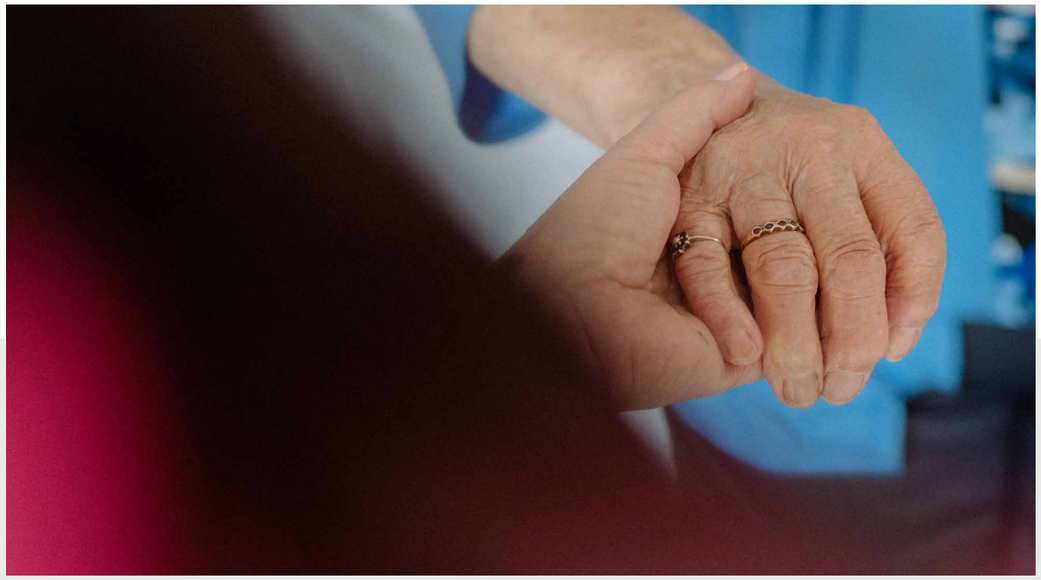

A Home For *Family And Friends* To Visit At Any Time

Our home is your home and we want your family to be part of your stay. We have an open door policy with no restriction on visiting hours so family, friends and pets can all visit! Whether they join you for a cup of tea, a drink in the bar, a cosy cinema night or a three course meal, we want you to feel at home.

Exceptional Care For A Wide Range Of Different Needs

We always make a special effort to ensure family members are kept in the loop with their loved one's care, and take time to listen, ensuring our residents and their families are heard when it comes to personalising care.

01

Residential

Many people living alone may only require a small amount of support but greatly value companionship and reassurance. Our residential care provides daily assistance with essential tasks, while promoting independence, enabling residents to continue living life on their own terms.

Alongside practical support, we focus on social engagement, meaningful activities and opportunities to build friendships. This ensures that our residents feel connected, supported and valued every day.

02

Respite

For families needing a break from their caring roles, or perhaps a post-operative stay to get you back on your feet, we offer respite stays for both residential and dementia care, with nursing if required.

03

Palliative & End of Life

As a family we want you and your loved one to have the reassurance that you can remain at Bramshott Grange. We will work closely with Macmillan and the community teams to ensure everyone is supported at this difficult time.

04

Dementia

We understand that dementia can be challenging for both individuals and their loved ones. Our highly trained team provides personalised care, taking the time to get to know each resident and support them to live comfortably and with dignity, while enjoying meaningful, stimulating activities throughout their dementia journey.

05

Nursing

We provide 24-hour nursing care to give residents and their families the reassurance that support is always on hand. At Bramshott Grange, our experienced care teams, including onsite Registered General Nurses, are here to meet each resident's individual needs. They provide compassionate care tailored to their unique situation, including catheter care and wound management.

“ There wasn’t the depressing feel or smell you sometimes find in care homes. Instead, there was a lovely clean, welcoming feel to the place as we sat out on the terrace in the sunshine and enjoyed a cup of tea.”

Michèle and her sisters, Amanda and Samantha, share how planning ahead and choosing the right care home for their mum Diana brought peace of mind and better quality time.

“I didn’t want us to find ourselves in a situation with mum where she was suddenly hospitalised and we faced a crisis, having to find somewhere at very short notice with few if any options,” explains Michèle.

Michèle decided to take a look at some local care homes and, by chance, as a member of a pastoral care team, she was due to visit a family friend who had recently moved to Bramshott Grange.

“I went in with an open mind and what struck me immediately was that in the reception/ bar area you weren’t greeted by a large television on the wall with residents just dumped in front, not really watching, just vegetating,” adds Michèle.

“There wasn’t the depressing feel and smell you sometimes find in care homes. Instead, there was a lovely clean, welcoming feel to the place as we sat out on the terrace in the sunshine and enjoyed a cup of tea.”
