WELCOME TO BRANDON HOUSE

Brandon House is a friendly care home in Bell Green on the outskirts of Coventry, specialising in nursing dementia care for up to 35 residents.

Our welcoming home centres around our courtyard garden, where many residents enjoy taking in some fresh air and tending to the plants. Inside, you can find homely sitting and dining areas, where residents are able to socialise, relax and enjoy a choice of nutritious meals. Each of our ensuite bedrooms are bright, spacious, and fully wheelchair accessible, with their own TV and phone point, and residents are encouraged to decorate with personal items to ensure Brandon House feels like home. Residents can also enjoy a pampering session in our on-site hair salon, or a moment of peace in our Quiet Room.

A HOME TO MAKE YOUR OWN

With a full calendar of activities and events, there is always something to keep residents entertained, be that an excursion in our specially adapted minibus or celebrating special occasions within the home.

Personalised Care, Tailored to You

Our team are dedicated to ensuring residents the kindest possible care.

We provide comprehensive and compassionate care to cover all medical and wellbeing needs, 24 hours a day. Our care team work with residents and their families to build a personalised care plan, and are proud to ensure privacy, dignity and respect, while fostering independence, confidence and wellness for each of our residents.

We look forward to welcoming you
