

Welcome to Country Lodge Nursing Home

Country Lodge

NURSING HOME

Quality care in beautiful surroundings

Country Lodge is designed to be a home from home

Country Lodge is a converted flint barn conveniently located on the A27 but nestled in the beautiful village of High Salvington, near Worthing.

We're proud to be rated as 'Good in all areas' by the CQC, offering 24 hour permanent and respite nursing care in a 'home from home' environment.

Our Team is like family: they care deeply about our residents and each other.

We choose our staff carefully and ensure they are trained to a high standard, participating in regular training courses to make sure their practices are up to date. Many of our staff have been with us for a long time (some for over 19 years), and emphasis is placed on building a rapport with each one of our residents, possible because we are a small home. From our registered nurses and care staff to our kitchen staff and the Activities Ambassador, everyone is highly experienced, trained beyond required standards and committed to providing the very best quality of nursing care.

We prepare excellent homemade meals and engaging activities.

Our delicious, home-cooked meals are prepared using fresh, local ingredients. The menu is varied, changing with the seasons and accommodating the residents' requirements. Not to mention homemade cake for afternoon tea everyday!

Careful attention is paid to the mental health of residents as well as their health care needs. This is why we have a dedicated Activities Ambassador who hosts a range of daily, weekly, and seasonal activities. It is also why we have no restricted visiting hours during the day.

Our warm and friendly atmosphere is enhanced with many regular activities, including art club, games, gentle exercise classes, regular live music, singing and theatre performances. Our notice board in the reception area shows the weekly list of activities. We also enjoy a good celebration which friends and family are invited to, such as our Summer Garden Grill with live music, our Christmas "Punch and Carols" and other events like fireworks parties and birthday celebrations.

All residents have the opportunity to feedback their views and preferences on all aspects of the home, with emphasis on food and activities, at the monthly Manager's Forum held in the Lounge with a glass of Sherry. It is a well-attended, vibrant event which always leads to some very positive changes.

"Mum is very impressed with the food, and she is a tough cookie to please! A huge effort is always made to make events special and to celebrate birthdays and other occasions. Mum enjoys the wide range of activities offered each week."

Steve B (Son of Resident)

We offer care that is professional and welcoming.

We provide 24-hour nursing care and support for all our permanent, respite, and palliative care residents. Our specialist areas of care are residential care, permanent nursing care, respite care, MS care, Parkinson's care, post-stroke care, and palliative care.

Permanent Residential Care with nursing

Our rooms and home are designed to maximise your independence whilst removing the burden of domestic responsibilities, and with 24-hour care provision and support. Some of our residents still continue with the regular features of their calendars before they came to Country Lodge.

Permanent Nursing Care

Our rooms are fully equipped to accommodate 24-hour nursing care. We use an electronic care plan system to ensure the most accurate and up to date recording of residents' medical needs.

Respite Nursing Care

Respite care is two or more weeks of 24 hour nursing care and support, enabling the resident's usual carer to have some much needed rest and relaxation.

MS Care

Our team has experience caring for residents with MS and care plans include physiotherapy and social interaction to promote and maintain their independence for as long as possible.

Parkinson's Care

The nursing and caring staff at Country Lodge work hard to ensure independence is maintained for as long as possible through exercise and encouragement.

Post Stroke Care

With training in caring for residents with post-stroke challenges, we combine physiotherapy, physical activities, a nutritious diet and social interaction to rebuild the resident's life.

Palliative Care

This is 24-hour care and support for those diagnosed with cancer and other terminal conditions. It is a privilege to support their family and friends in what is an extremely difficult time. Visiting policies are flexible for those considered close to the end of their life.

Rooms and Garden

We offer a range of rooms to suit all budgets, but we are particularly privileged to provide luxury garden rooms with direct garden access. All of our rooms are fully furnished and decorated, leaving space to personalise with your own pictures and belongings. Our Luxury Garden and Lodge Garden rooms have additional space and furniture for entertaining family and friends.

All our bedrooms have a specialist profiling nursing bed and mattress, a touch lamp, smart television, large button private phone and WI-FI.

Most bedrooms have en suite facilities, and those in our Luxury Garden and Lodge Garden rooms have large accessible wet rooms and direct access to our wheelchair paths. Our Lodge Garden rooms also have built-in ceiling hoists for additional resident comfort.

The recently expanded living room and dining room provide the comforts of home – a large television, large print books, games, a much-loved piano and seating areas for family and friends to visit.

Our west facing garden is a feast for the eyes with private entertainment spaces, accessed by wheelchair paths and overlooking stunning views of the South Downs National Park. It is a joyful place to make the most of the sunshine.
