Seeing life through our residents' eyes

All staff in our dementia homes – from maintenance and catering to care and nursing – receive specialist training in dementia awareness. This helps them to experience life through the eyes of a person living with dementia.

Registered nurses available day and night

At Casa di Lusso, as in all of our nursing homes, we have Registered Nurses in constant attendance, day and night. Of course, nursing isn't just about clinical and medical care. Our nurses are good communicators and listeners too, working well as part of a team alongside residents, families, friends and other specialists.

Activities

At Notaro Homes we understand the importance of meaningful activities. They play a vital role in helping our residents live life to the full, whatever their physical ability. Our activities are not only designed to engage mind, body and spirit but to respect and honour our residents' individuality. Each of our homes have their very own Activities Coordinator who is responsible for organising and delivering a fun packed, varied programme which often includes trips out and about and visits from animal sanctuaries, community groups and theatrical companies.

CARE HOMES

Type of care:

Casa di Lusso is a home for people living with dementia and those with general nursing needs, learning disabilities and/or mental health. The home provides long and short term care and respite.

This modern yet elegant home is situated on the northern outskirts of Bridgwater. Located alongside Bridgwater Community Hospital and a mile from Junction 23 of the M5. The home has been mindfully designed and built to maximise excellent outcomes for people living there and is a home unlike no other in the locality. Casa di Lusso is a welcoming home where people live happy and relaxed lives.

Highly trained nurses and a skilled health care team manage the home 24 hours a day strongly supported by our housekeeping team.

Mealtimes are an important part of daily life within our homes, we employ qualified chefs and kitchen staff who cook nutritious delicious meals daily, preparing food to suit

a wide range of dietary requirements.

Each room has been thoughtfully created to enhance the lives of our residents. Rooms boast an ensuite with shower, under floor heating, and our innovative nurse call system, this alerts our care team to any unusual movement during the night. The rooms are elegantly decorated and beautifully furnished which includes a built in wardrobe and fridge.

The gardens create a tranquil relaxing space with stunning fountains, raised beds and plentiful seating. This area plays an important role to our residents. Being able to go outside and smell the flowers, or attend to some planting, can help bring a sense of wellbeing and serenity.

“I am so proud to be able to provide an excellent level of care in keeping with the excellent surroundings of Casa di Lusso. This is proving to be so much more than just another care home.”

Kim Leech - Home Manager.
