About Us

Founded in 2006, Infinity Care Ltd is a dedicated, compassionate and professional team offering home care across the South, offering high-quality domiciliary (home-based) and live-in care across communities throughout the South. Our commitment is to provide compassionate and professional support that enables individuals to live fulfilling lives within the familiarity and comfort of their own homes.

At Infinity Care, our primary goal is to help individuals maintain their independence for as long as possible. We achieve this by delivering respectful, personalised support tailored to each client's unique needs. Our highly skilled carers are proficient in assisting with a comprehensive range of daily requirements, from personal care such as dressing and toileting, to essential tasks like medication management and meal preparation.

Beyond practical assistance, our carers also offer the invaluable benefit of companionship and peace of mind through their consistent presence. We understand the importance of a holistic approach to care, ensuring not only physical well-being but also emotional comfort and security for our clients.
