

Our homes may well be care homes, but first and foremost they are our residents' homes.

Each room has been created to be a comfortable place to relax in and enjoy. We also encourage you to bring the little things that make your new surroundings feel like home.

John Adair
Immacolata
House
Manager

- Public transport

Seeing life through our residents' eyes

All staff in our dementia homes – from maintenance and catering to care and nursing – receive specialist training in dementia awareness. This helps them to experience life through the eyes of a person living with dementia.

Registered nurses available day and night

At Immacolata House, as in all of our nursing homes, we have Registered Nurses in constant attendance, day and night. Of course, nursing isn't just about clinical and medical care. Our nurses are good communicators and listeners too, working well as part of a team alongside residents, families, friends and other specialists.

Activities

At Notaro Homes we understand the importance of meaningful activities. They play a vital role in helping our residents live life to the full, whatever their physical ability. Our activities are not only designed to engage mind, body and spirit but to respect and honour our residents' individuality. Each of our homes have their very own Activities Coordinator who is responsible for organising and delivering a fun packed, varied programme which often includes trips out and about and visits from animal sanctuaries, community groups and theatrical companies.

Visitors are always welcome, call in at your convenience to see for yourself how we care, when it matters most.

Immacolata House

Langport, Somerset

Type of care:

Nursing home for people living with or without dementia. Long term, short term and respite.

Our stunning home set in the Somerset countryside offers superb accommodation, which is purpose-built for nursing and dementia care.

Beautiful, spacious interiors and stunning views of the surrounding countryside are the first things that people notice at Immacolata House. Take time to look a little further and you'll find there's even more to our home than first meets the eye.

Wander down the spacious, colour-coded corridors and you'll hear laughter and music from one of the resident's lounges, or see someone quietly reading in our drawing room.

Step into the landscaped gardens and you'll find a patio area, winding pathways, planting boxes and a sensory garden. From there, it won't be long before you'll discover our guests' favourite feature: 'Benvenuto Fattoria', our 'Welcome Farm'. Farm residents include pigmy goats, pigs, peacocks, lop-eared rabbits, guinea pigs, Indian Runner ducks, turkeys and feather legged bantams.

"We want to do the best we can, to the highest standard, for the people whose home this is. I've experienced dementia in my own family and that's what made me want to do this job. All of us here are committed to doing all we can for our residents and their families."

John, Immacolata House Manager.
