Correct at time of going to print.

Caring Homes was founded by my eldest son, Paul, and myself three decades ago. It was as important to us then, as it is now, that all of our homes reflect our company name and be a 'caring home' for each resident.

We are proud to introduce Brooklyn House located in the heart of the community of Attleborough.

As a registered nurse, I have a passion for delivering person centred care for older people. I believe that every resident deserves, and should enjoy, the best possible quality of life.

That passion is instilled into every Caring Home where our teams are committed to supporting residents to continue to live their life to the full. That means more than providing great care; it's about working with each resident and their family to truly understand them, their wishes, needs and dreams for the future, and striving to make those dreams come true.

Brooklyn House, like all our homes, provides a warm homely atmosphere, but it's the highly skilled and dedicated teams of care workers, nurses, support staff, specialists and managers who make the difference. They consistently go above and beyond to deliver the best possible care to residents – a fact that is recognised in our resident and family testimonials.

Looking for a care home is an emotional and challenging time. We have decades of experience in supporting families to make these difficult decisions. We're here for you, every step of the way, helping our residents to live the life they want, with independence, choice and dignity.

We look forward to welcoming you to our beautiful caring home, and will be on hand to answer your questions.

MAKING A DIFFERENCE

Whether you are looking to connect with new friends or have specific care or nursing needs, we provide high quality residential and nursing care.

Knowledge and understanding are at the heart of the care we provide. We take time to learn about your life, for example, your career, the places you've lived, and the people who are important to you.

We work with you to understand and capture your stories, your likes and dislikes, the things that make you unique. Then we use this knowledge and your care needs to shape your care plans. No detail is too small, right down to the number of pillows you like on your bed.

We understand that this is your home, and privacy and choice are fundamental to ensuring your dignity.

We will always ask permission to come into your room and we'll always give you choices about what you'd like to do and how you'd like to do it.

We also offer day care and overnight care for those who are still living at home, but who may need some additional support or a change of scenery.

Caring Homes has been commended for our commitment to training and has been honoured with the prestigious 'Princess Royal Training' Award for our Living in My World dementia training.

LIVING IN MY WORLD

There are now over 944,000 people living with a diagnosis of dementia within the United Kingdom and it is important to know you are not alone.

If you have recently been diagnosed with dementia, we understand this can be a difficult and emotional time. At Brooklyn House we can help you to understand more about dementia and how to live as well as possible, including making plans for the future.

Award winning training

As well as their ongoing training in their particular field, every team member receives our unique 'Living in My World' dementia training. It highlights the importance of meaningful activities and a stimulating environment for people living with dementia, as well as addressing clinical aspects of care.

Our additional training 'Food in My World' provides our hospitality team and chefs with the skills and knowledge to stimulate senses and increase creativity in the cooking and presentation of food. This can provide a much improved dining experience for residents living with dementia and or dysphagia.

Helping residents live well with dementia

Our residents living with dementia have every opportunity to continue with the daily activities that were such a formative part of their lives, and which makes them feel happy and fulfilled.

Our communal rooms and ensuite bedrooms are designed in accordance with research published by Stirling University's Dementia Centre, an international centre of knowledge and expertise dedicated to improving lives of people with the condition.

With our assistance or together with family members, residents can prepare drinks, snacks and meals, carry out housework or set the table. Of course, residents are also encouraged to participate in all organised activities in the home too.

Throughout the home, memory aids promote maximum independence and confidence. Our dementia friendly design features include strong lighting coupled with the use of colour and contrast for safety and perception, plus clear signage with icons to help residents find their way around the home.

FREQUENTLY ASKED QUESTIONS

What is the ratio of staff to residents?

As everyone's needs vary, we will assess each individual and agree on the level of support and care required with each resident, family members, and healthcare professionals where appropriate.

Do I have to pay extra for entertainment?

No. The in-home entertainment, events and activities are based on the interests, preferences, and needs of residents. Therefore, we consider the range of lifestyle options available to be a part of their care planning in which good physical, cognitive, and social engagement can directly improve health and wellbeing.

Do you offer room service?

Yes we do and there is no tray charge for this service. Friends and family can join whenever you wish.

What are your visiting times?

Brooklyn House operates an open door policy. Family and friends are always welcome and can see their relatives and loved ones as often as they wish.

Can I bring my pet?

Most pets are welcome to visit for the day by arrangement with the Home Manager.

Who decides on the menus?

Our Head Chef and the team have many years of cooking experience. They craft their nutritionally balanced menus using seasonal produce, and are guided by the feedback provided to them from our residents during their monthly hospitality meetings and individual care plans.

What is a care pathway?

Care homes that provide a combination of residential, nursing and dementia care are said to offer a 'care pathway'. Homes that offer all three are described as offering a 'complete care pathway'. Essentially; having a care pathway can allow a resident to remain at the same home should their needs change, without having to relocate to another service.

Why do fees vary based on duration?

A premium is added to the cost of respite care or a short stay. These residents enjoy all the benefits on offer to those who call Brooklyn House their home.

UNDERSTANDING CARE FEES

Our range of fees are determined to ensure the safety of our residents and the comfortable running of their home.

Our fees are competitive, reviewed annually, and can vary based on individual care needs, size or aspect of room, and duration of stay.

Fees quoted are per week and include medications management, retained GP services, weight, hydration and nutrition monitoring, plus regular and varied events and activities, wellbeing support and care and nursing in line with assessed needs.

Fees are payable in advance prior to admission and comprise of up to one month's care fees and a refundable deposit.

Depending on an individual's needs some funding assistance may be available. When you visit the home please ask about the allowances and how we may help you request any funding entitlements.

Local Authority Care Fees

Available for a resident over 65 years of age who does not have the required funds to pay for their own care. These fee levels do not meet our requirements, however it is possible for other family members to 'bridge the gap' or 'top up' any shortfall, subject to assessment.

Attendance Allowance

This is also available for those over 65 years of age who have a physical or cognitive need and is provided at a lower or higher level, subject to assessment.

Funded Nursing Care

This is a contribution by the NHS towards the cost of nursing care for those in a care home.

Continuing Healthcare

This is arranged and funded by the NHS for people who are not residing in hospital and have been assessed as having a 'primary health need'. We recommend that making the decision on how to fund a care home placement is ideally done with the support of a professional advisor.
