Who We Are

Hello! We are an independent, community-based provider of exceptional care at home across Teesside and North Yorkshire.

We understand that a significant number of people want to stay at home. We also understand that it can be difficult to find consistent, high quality, personalised alternatives to a care home.

The driving force behind Lago Homecare is to bring care to you, and provide all of the things you expect and deserve to receive.

What is Homecare?

Homecare is a type of support that enables individuals to continue living in their own homes while receiving assistance with daily tasks.

Homecare is entirely adaptable as a person is supported on their own terms, in a familiar environment. If help is needed, seeking homecare sooner rather than later is always the best approach.

Homecare is about promoting dignity, choice, and independence, ensuring individuals are safe and comfortable in their own space.

Overall Experience ★★★★★

Service User - 22nd January 2025

Everyone is kind, caring and professional allowing me to recover from my surgery with dignity and enabling me to make progress at my own pace. They are also flexible enough so that my daily routine can be adjusted when needed e.g. for hospital appointments. I would have no hesitation in recommending them to others.

Overall Experience ★★★★★

We are relieved to have found such a great care provider as Lago Homecare. At one of the most difficult times of our lives, they have been willing to do so much to support us and we have received excellent care.
