

LONGBRIDGE DEVERILL
—HOUSE & NURSING HOME—

RESIDENTIAL | NURSING | DEMENTIA | RESPITE CARE

Your choice of the lifestyle you want, and the care that you need.
All in one setting. All fully inclusive. All here for you.

Two outstanding care facilities in one location. Welcome to Longbridge Deverill

Set in the beautiful Wylde Valley with 4 acres of landscaped gardens and woodland. Our signature setting is Longbridge Deverill House, our beautiful Victorian vicarage which provides an elegant setting for our more independent residents. If you've always loved the idea of living in a country mansion we can offer a homely experience in a tranquil garden setting with even more facilities and support right next door if you should ever need it.

That comprehensive support is embedded in our modern, state of the art, purpose-built facility next door: Longbridge Deverill Nursing Home.

If you're the modernist type you'll appreciate the rooftop terrace, the quiet enclosed gardens, the big, bright interior spaces and a design that fully supports the needs and preferences of its residents.

Longbridge Deverill offers a range of care services from safe, supported independent living to full nursing and specialist dementia care.

Our care campus offers a transitional support for changing needs and our comprehensive resources can be accessed as and when required without leaving familiar surroundings.

Longbridge Deverill House is our residential home and is a lively and homely entry to our care capabilities, suited to those who might just need the reassurance of support on hand but who prefer to be independent where they can.

That support is next door in our modern Nursing Home, where our specialist nursing and care staff are on hand around the clock. We can provide respite and rehabilitation services here too, with our professional skills and experience focused on your health, welfare and happiness to help you make the most of every day.

Our Dementia wing was built with the latest good practice incorporated in its design, with familiar colours, bright rooms and a safe environment for residents who might need specialist assistance with daily living.

All of our residents are our family, in our home, and we strive to maintain a loving and caring community which is extended to our residents families and friends, offering mutual support. Come and visit us. We'd love to know if you can be part of this too.

We all need a life well lived, and life at Longbridge Deverill delivers this, adding new chapters, creating enjoyable moments and making memories for our residents.

We love music, yoga, gardening, afternoon teas, activities and offer lifestyle choices of all sorts. Be pampered in our hair salon, or enjoy a trip into town, there are lots of experiences to ensure every day is different. What's more, our resident chef is on-hand to serve up a variety of homecooked and nutritious meals which can be tailored to individual preferences and dietary needs and enjoyed in one of our comfortable dining rooms.

Of course there are times where a quiet space is what you need: as well as our comfortable en-suite rooms we have indoor and outdoor areas where you can enjoy some perfect peace to read a book, take in the local wildlife or just simply relax and enjoy some rest.

The best lifestyle we can offer is to ensure variety and meet your needs whatever the day brings. *It's simply called Care.*
