

Live in Care by My Homecare

What is live in care?

Live-in care is often an ideal solution for you or a loved one, who needs more intensive support and care whilst wishing to remain living in the comfort of their own home.

Our live in carer will maintain your comfort and safety whilst providing everything from companionship to help with dressing, cooking, housekeeping, washing and medication.

Our experienced carer will live with you or your loved one who is finding it difficult to maintain their independence in their own home. They will provide companionship, safety, care and support 24 hours a day.

Why choose live in care?

Live-in care can be more affordable than a care home.

It makes it possible to stay in familiar surroundings along with friends, family and neighbours, treasured possessions and memories. Live-in care provides the benefit of genuine companionship. It ensures the right care and support is there when you or your loved one needs it.

Live in Care

Stay in your own home

One-to-one care

Continuity of lifestyle

Choice of food types
and meal times

Average cost from £750.00
per week

Residential Nursing Home

Move to new environment

Shared care

Change of lifestyle

Set menu and
meal times

Average cost from £650.00
per week

Support organised around your needs

We can provide as much or as little support as you or your loved ones need.

Each support plan will be as individual as the person.

Our live in carer can help with friendship, meal provision, assistance with mobilisation and for safety.

They are also fully trained to care for people with more complex needs.

Our services can be provided for any length of time from several weeks to as long as is required.

We will discuss and accommodate your needs.

Peace of mind

Remember your support plan will be individualised and care services provided will be on a one-to-one basis, day and night from your carer who lives with you.

Services our Live in Carers can provide

My Homecare understand each of our service users have their own personalities and individuality.

For this reason we offer that personal approach. It is important that we nurture a caring relationship to grow between both parties.

We have a matching service in which we always consider the most suited carer for your needs, before introducing them to you. After all, you need to find someone you warm to, and who you'd be happy to have in your family home.

Carer Training and Experience

For all our standard live in care packages we will introduce carers that we employ directly through My Homecare. Our manager recruits, completes all employment checks, pays the carers, ensures tax and NI is paid accordingly, organises cover if they are sick or on holiday, trains and insures all of our carers.

All carers are recruited following a stringent recruitment process. Each will have provided us with their previous work references and will have an enhanced police check (DBS).

All of our training has been developed in consultation with Skills for Care, a body whose role looks at the attitudes, values, skills and qualifications necessary to provide high quality care.

As a minimum our Live in Carers are trained in Health and Safety, Basic Food Hygiene, First Aid, Moving and Handling, Dementia and Safeguarding.

Many of our existing carers are diploma or degree level educated and have vast experience of working in care and we are constantly developing their skills. We regularly arrange complex care training for carers in categories such as Stroke, Stoma Care, Foot care, Peg Feeding etc...

What's Next?

Quality Assurance

My Homecare quality assurance program ensures we perform a number of care reviews from day one. With your permission we also like to complete regular spot checks to ensure quality care is being provided by our carer. We will also ask you if you'd like to take part in our regular customer satisfaction survey.

Our quality assurance policy ensures that you and your loved ones are happy and that we're doing everything we can to support you.

You're in control at all times

We have worked hard to make sure that our pricing is clear and our services are excellent value for money. We'll be clear about the costs and payment methods and agree any extra expenses in advance (such as mileage or taxi charges), so you know exactly what you need to pay and when. If you want to stop our services,

you can do so at any time. All we ask is that you give us four weeks' notice. We don't charge you anything for ending a contract with My Homecare

Cost of the Care Service?

We know that value for money and transparent pricing are very important to our customers. My Homecare assessment manager will assess your individual care requirements and will be able to give you the complete breakdown of the cost of your care services and what you will receive.

Live-in care is a genuine affordable alternative to moving to a residential home.

Ultimately, the real value of our live-in service is that it enables you or your loved one to continue living independently at home.

The Next Step

If you would like to find out more about our live-in care service please call your local branch.
