

OAK SPRINGS

CARE HOME

A care home for the whole family

“She is always treated with dignity and compassion. They have made our lives a lot easier knowing she is being treated as we would treat her.”*

★★★★★
“My mum has lived at Oak Springs for 2 years and I can honestly say she has been so happy and well cared for.”
Relative Review. One of our five-star reviews

EXCEPTIONAL STANDARDS OF CARE

Oak Springs Care Home is a 74-bed purpose built, specialist dementia and residential care home, that offers short-term respite stays in Wavertree, Liverpool.

Our goal is to deliver exceptional care in a comforting and nurturing environment. Our accommodation has been designed with this in mind, with private en-suite bedrooms and spacious, friendly living spaces for our residents to enjoy.

Throughout our three storeys (which are accessible by lifts) you will find comfortable and relaxed spaces, catered to the individual needs of our residents, with the highest quality equipment and facilities to ensure the best possible care.

In the summer, Oak Springs is bathed in natural sunlight, which penetrates through our floor to ceiling windows and creates an enjoyable and relaxing space for our residents, who are welcomed to enjoy the weather in our courtyard and outside decks. In the colder months, we are warm, cosy and protected against the elements outside.
