About

Oak Lodge Care Home is purpose-built to provide the very best of everything, from the outstanding care, to the beautiful accommodation and delightful gardens, to the high quality, delicious food and enjoyable lifestyle activities.

The team

Our dedicated team is experienced and compassionate, they see each resident as a unique individual, reflecting this throughout their person-centred care. The care team have access to the latest care plan technology and will take time to get to know you, your family and all of your favourite things.

Oak Lodge Care Home is nestled into the picturesque town of Chard in Somerset. Steeped in a rich history dating back to the Roman times Chard was an important centre for the lace trade in the medieval period.

There are several local parks in Chard including Chard Reservoir which is a great place for walking and fishing. You can also visit Forde Abbey which is a former Cistercian monastery that was converted into a stately home in the 16th century.

I pride myself in being hands-on in my role to develop good relationships with residents, families, and team members to ensure people are safe and well looked after. I also like to make sure we are delivering high-quality person-centred care.

SIMPLY GOOD CARE

Resident care plans reflect all that an individual would want and need for their care to be delivered in the way they choose, with independence and dignity as prime considerations. We also have team of expert Champions who lead on specific areas such as infection control, safeguarding and dignity.

CARE THAT WE OFFER:

Residential Care

Our residential support and care is ideal for those of our residents who do not require nursing care or nursing care associated with dementia. It might be that assistance with washing and dressing is all that is required. Everyone who comes to make their home with us has differing care requirements and our 'person-centred' approach to care ensures that all needs are met, no matter what they might be.

Nursing Care

Like all our team members, our skilled and fully qualified nurses are committed to providing an excellent standard of care for those people who require a qualified nurse available to them 24hrs a day. Our nurses are experienced in providing nursing care for a broad spectrum of nursing requirements, as are our experienced management teams who lead the nursing team within the home.

Dementia Care

Our priority for our residents living with dementia is that they should always feel safe and comfortable. Each resident is given the unique care and support that they require through our person centred care planning. These individually tailored care plans are essential for excellent care and are delivered by our appropriately trained care teams.
