SIMPLY GOOD CARE

Resident care plans reflect all that an individual would want and need for their care to be delivered in the way they choose, with independence and dignity as prime considerations. We also have team of expert Champions who lead on specific areas such as infection control, safeguarding and dignity.

CARE THAT WE OFFER:

Residential Care

Our residential support and care is ideal for those of our residents who do not require nursing care or nursing care associated with dementia. It might be that assistance with washing and dressing is all that is required. Everyone who comes to make their home with us has differing care requirements and our 'person-centred' approach to care ensures that all needs are met, no matter what they might be.

Whatever the need, a helping hand is always available.

“ I feel that we were extremely lucky for Mum to be offered a placement at Peel Moat Care Home as it offers its residents a peaceful, warm and homely environment to live in. I've always found the staff to be exceptionally kind and compassionate with her.
