

Can I bring my pet with me?

Moving home can be an emotional time and animals can often provide comfort and familiarity. If you wish to bring a pet with you, please discuss with the Home Manager to see if this is possible after taking account of health and safety for you and others in the home.

You are responsible for all costs, such as your pet's food and medical costs, and any damage they may cause to your room or the home. All pets must be kept up to date with their vaccinations at your own cost.
