CROWN CARE

WELCOME TO HOLYROOD HOUSE

We want to help you through the experience of choosing our care home for yourself or a loved one

Here at Holyrood House we appreciate that the decision to move into a care home can be a complex, sometimes confusing and often an emotional time.

Our aim is to give you as much help and assistance in this very important process to ensure that you make the right decision, the one that is the best for you or your loved one.

Our experience has shown that there are many benefits of moving into a care home and the key ones include: 24 hour care and assistance, alleviation of social isolation, promotion and maintenance of independence.

This brochure aims to highlight the benefits of a good care home; round-the-clock assistance, friendly faces every day, companionship and for many residents, the renewed confidence and independence that being supported by our dedicated staff can bring. It also includes a useful checklist so you know what to ask and what to look for in any home you visit.

We hope this brochure gives you all the information you need to start this important journey with us. Of course, if you would like to discuss anything in detail, or have a specific question, please contact our office on **01977 679219**.

Our Care Services

Residential

Our suites are designed for residents to enjoy their own private accommodation within small living groups. This allows residents to maintain independence whilst at the same time ensuring 24 hour personal care is available and at hand when needed.

Dementia

We recognise the needs of people with dementia and other memory impairments. We work closely with industry experts in creating the right environment that can make a big difference to people with dementia. Our accommodation has been specifically designed to provide surroundings that are homely, safe and stimulating. This includes a number of therapeutic design features created by our dementia care specialists to bring comfort and familiarity to residents. Our staff are specially trained to help manage the unique needs of residents with varying degrees of dementia and at all times we ensure our care delivery remains person-centred.

Respite Care

Caring for a loved one can be rewarding, but time off for both of you is essential. Respite care is a short break from caring that allows carers the time to recharge their batteries while offering their loved ones the reassurance of 24-hour care. We provide the highest standard of care in a safe and comfortable environment tailored to individual needs. A short stay can be worthwhile for many reasons:

- 👑 You need to take a holiday, a weekend or a few days to recharge your batteries.
- 👑 A relative or patient is recovering from an illness/operation and needs extra support.
- 👑 You are feeling unwell yourself and need time to recuperate.
- 👑 Together you are considering a care home for a loved one and they would like a short stay first.

Specialist Services

We also provide Palliative Care, Specialist Care Services and End of Life Care.

Food & Catering

Good healthy food is at the heart of our homes. All our chefs, cooks and kitchen assistants are fully-qualified, and all our care staff and nurses are trained in food safety.

There is home baking every day and we use fresh ingredients as often as possible to create a range of appetising dishes. Our kitchens are audited internally every month and externally every year by the Food Standards Agency.

There is a choice of dishes at every meal-time but if nothing on the menu takes your fancy, we will always offer alternatives. Special diets are catered for to accommodate clinical or cultural needs and snacks and fresh fruit are available at all times, including during the night.

Residents can choose to eat meals in our home's sociable restaurants or privately in their own rooms dependent on their personal preference at any period of time.

We can also help you celebrate special occasions such as birthdays, anniversaries and family events.
