

Thurlaston Meadows Care Home

We continuously endeavour to find ways
to improve our resident's wellbeing.

Life at the Meadows

Thurlaston Meadows Care Home is a family-run care home that provides first-class care for elderly residents within a homely and relaxed environment. The dedicated and experienced caring team is committed to providing tailor-made care for each individual, ensuring each person is looked after with respect and dignity.

Thurlaston Meadows offers a choice of room styles to suit each individual's preference and budget. Some of the larger suites are designed for couples to share or for someone who requires more space.

Food is an important part of life at Thurlaston Meadows, providing healthy and appetising meals is a primary concern for the chef. Meals can be enjoyed in the bright and attractive dining room, in your room or outside on the terrace weather permitting.

Daily entertainment and stimulating events inside and outside are part of everyday life at the Meadows, which can be enjoyed by everyone or for those who wish to relax in a quiet lounge or library, this is available too.

Dedicated And Caring Staff

The dedicated and experienced caring team is committed to providing tailor made care for each individual, ensuring each person is looked after with respect and dignity.

Respite Care

As well as permanent residency, the home also provides respite and recuperative care. Respite care allows the person's normal carer a break from their caring duties whilst recuperative care enables a person to recover from an illness or operation away from a clinical environment.

Catering

The catering team are led by Lyn Davies a fully qualified Head Chef who is passionate about producing good home cooked food that is nutritious, healthy and most importantly tasty. Using the very best of locally sourced produce that is fresh and seasonal. Care is taken to ensure every meal we produce for our residents reflects their own specific dietary needs as laid out in their care plan which is a key part of our care planning.

As well as the regular meal times, our catering specialists organise regular outdoor BBQs and themed dinner parties. Visitors are also encouraged to join their loved one and enjoy the culinary delights that our catering team passionately produce.

Residents are encouraged to enjoy their meal and socialise in the dining room but are free to have their meals in their own room, the Orangery or in the warmer months on the Terrace if they prefer.

Activities

Our Activities Team play a fundamental part in enhancing the lives of our residents by creating a fun and hugely varied program for everyone to participate.

A great source of fun and laughter, our range of activities really help each resident live their life to the full. Our activities team promote independent and group activities as well as a person's personal hobbies to make them feel at home and keep them active. By taking the time to understand each residents capabilities, hobbies and interests we're able to build a personalised activity plan.

Accommodation

Catering to a wide range of preferences and budgets, the original 17th Century Manor House has been tastefully and sympathetically adapted and developed to provide a choice of elegant suites and a number of spacious single rooms with en-suite facilities. All of the bedrooms are decorated in an attractive pallet and new residents are encouraged to bring their own furniture and personal effects if they wish to help them feel at home.

If you would like to view the home or have any questions we can answer please contact our friendly team on 01788 522405 who would be more than happy to assist you.
