OUR RANGE OF

# CARE SERVICES

## RESIDENTIAL CARE

Some people make the decision to move into a care home because they want companionship and the everyday chores of running a house have become overwhelming, whilst other people need more assistance with the daily activities of life. Whatever your needs, our team are there to care for and support you as much as you require.

We will create a dedicated care plan which addresses all aspects of your life, the choices you have made and the way you want your care delivered. We review this every month or whenever there is a change, either prompted by your choices or your care needs. You and your family, if that is your wish, will be fully included in any changes to care.

We use a state-of-the-art electronic medication administration system, which helps us to achieve accurate delivery of medication at a time that suits you and your general physician. If you are currently registered at a GP practice near our home, you will be able to stay with your surgery.

## **MEMORY & DEMENTIA CARE**

We provide dementia and memory care on our Reminiscence floor for those people who need a little extra support due to having some memory loss or are living with the early stages of dementia. Our dedicated team will assist you to decide if this is the right environment to be supported in.

Our memory floor comprises beautiful rooms, welcoming communal areas, games and crafts area, hair salon and treatment room. Residents will be supported to enjoy a film in our ground floor cinema.

## **ASSISTED LIVING**

Whilst 24-hour support is available as standard, we encourage those who prefer to take care of themselves.

Some of our suites contain kitchenettes, which are suitable for people who are assessed as requiring lower levels of care.

OUR FOCUS ON

# WELLBEING

At Sanders Senior Living, lifestyle is as equally important as personal care. Your mental wellbeing has a huge impact on your physical wellbeing. With this in mind, we devise daily plans of activity which include physical exercise, arts and crafts, and much more. There will also be regular trips out to the local community, as well as various clubs to reflect the interests of those living here, be they choir groups, walking, bridge or art clubs.

We have twice daily film showings and all of our staff sit down together at 11am when it is 'Time for Tea'. It doesn't have to be tea, of course, if you prefer a pre-lunch sherry - but everyone sits together and shares in conversation.

There will always be a 'Juice of the Day' at the bar, and barista-style coffee with our own Sanders Senior Living ground beans available every day.

OUR

# CULINARY DELIGHTS

Food is such an enjoyable part of life, and we aim to make dining an enjoyable experience. Our Head Chef and Hospitality Team devise nutritious and interesting seasonal menus, reflecting the choices and dietary needs of the people that live with us.

Our highly-trained, experienced catering team will consult with you to discover your likes, dislikes and dietary needs, which will then, along with other preferences, help to form a weekly menu.

All dining rooms are beautifully furnished and create an admirable ambience; a delightful place to socialise and enjoy meals together, with the option still to take your meal in your suite, should you so desire.

Our 'Light Bites' menu of sandwiches, salads and soups is also available throughout the day, should you prefer not to have a 3-course meal in the dining room.
