# Why us?

---

Deciding which care home works best for you is a big decision. Of course, your safety and security are paramount.

It's also vital to make sure you'll have the right level of individual care and support. But that's far from the whole story. Taking effective care is a given, the deciding factor should be whether it's the kind of place you feel you'd want to call home.

One of the best reasons for choosing us is because we are a small, family run home that exclusively cares for residents with similar needs. In our experience our "small is beautiful" approach ensures the best combination of care and quality of life for our residents.

Obviously, we'd like you to consider us when choosing where you want to live. We think you'll like our approach to care. We aim to provide individual care, without taking over your life. We also think you'll like the friendly atmosphere, if our residents' reviews are anything to go by.

# Get in touch

---

We want you to make the decision that is absolutely right for you and your family – even if that's not us.

So, our approach is to start by giving you all the information you need to make a fully informed decision.

We've found the best way to do this is if you call us and talk to a member of our team. Or even better, drop in, we'll make you very welcome.
